**NOTICE OF THE PUBLIC COMMENT PERIOD
ON A DRAFT REMOVAL ACTION WORKPLAN**

The Department of Toxic Substances Control (DTSC) invites your comments on the Draft Removal Action Workplan (Draft RAW). If approved, DTSC would dig up the contaminated soil and ship it off site for disposal. This Draft RAW would include a deed restriction allowing only commercial and industrial uses for the property.

Soil samples found elevated levels of lead, arsenic, cadmium and dioxins in the soil at the Osage Industries 60th Street site. DTSC proposes to dig up and remove about ninety two cubic yards of soil. Then, DTSC plans to ship the soil to an authorized landfill for disposal and record a deed restriction limiting the property to industrial use only.

Under the California Environmental Quality Act, DTSC must evaluate whether the proposed actions may have any significant impacts on the environment. On the basis of our analysis, DTSC has prepared a Notice of Exemption.

The public comment period begins April 27, 2006, and ends May 30, 2006. You may send all comments in writing to Danny Domingo, Project Manager, DTSC, 1515 Tollhouse Road, Clovis, CA 93611 or by e-mail to DDomingo@dtsc.ca.gov. Comments must be postmarked or delivered by May 30, 2006.

You may review the Draft RAW and the Notice of Exemption at the DTSC web site (www.envirostor.dtsc.ca.gov/public) or at the Rosamond Public Library, Reference Desk, 3611 West Rosamond Blvd., Rosamond CA 93560.

The full administrative record is available at the:

At the close of the public comment period, DTSC will make the decision on the Draft RAW and the Notice of Exemption only after public comments have been received and considered. DTSC will prepare a Response to Comments document and send it to all people who commented on this project. Also, you can review the Response to Comments document at the locations listed above or on the DTSC web site.
